Acknowledgements

These materials are reviewed by the ACCA examining team. The objective of the review is to ensure that the material properly covers the syllabus and study guide outcomes, used by the examining team in setting the exams, in the appropriate breadth and depth. The review does not ensure that every eventuality, combination or application of examinable topics is addressed by the ACCA Approved Content. Nor does the review comprise a detailed technical check of the content as the Approved Content Provider has its own quality assurance processes in place in this respect.

The past ACCA exam questions are the copyright of the Association of Chartered Certified Accountants. The original answers to the questions from June 2006 onwards were produced by the examiners themselves and have been adapted by Kaplan Publishing.

We are grateful to the Chartered Institute of Management Accountants and the Institute of Chartered Accountants in England and Wales for permission to reproduce past exam questions. The answers have been prepared by Kaplan Publishing.

INTRODUCTION

This new edition of the ACCA Foundation Exam Kit is packed with exam-type questions, to help you to prepare for your exam successfully.

- Questions are grouped by syllabus topics and provide extensive coverage of all syllabus areas.
- All questions are of exam standard and format – this enables you to master the exam techniques.

Many past exam questions have been incorporated into the main body of questions within the kit and are grouped by syllabus area. However, two recent Computer Based Exams (CBEs) that were reproduced on the ACCA website have been inserted at the back of the kit in full, to enable you to see what a real exam looks like.
